

NOTICE OF VOLUNTARY EMISSION LIMITATION TO SURRENDER/TERMINATE TITLE V PERMIT

NOTICE IS HEREBY GIVEN THAT Northwest Pipe Company (NWP), located at 12351 Rancho Road in Adelanto, California, has submitted an application to surrender/terminate their Federal Operating Permit (44501112) by electing to voluntarily limit its facility emissions to the extent that the facility is no longer subject to the provisions of District Regulation XII – Federal Operating Permits, pursuant to the provisions of District Rule 221, section B. This permitting action proposes to implement enforceable facility limitations which will effectively designate NWP as a Minor Source for CO, NOx, PM10, SOx, single HAP, and combined HAP; and, a Synthetic Minor Source for VOC which is below the Major Source Facility thresholds for a facility located inside the Federal Ozone Nonattainment Area pursuant to District Rule 1201(S). These proposed limits will effectively alleviate this facility from its Federal Operating Permit requirements. This proposed action will result in a net decrease in potential regulated air pollutants.

REQUEST FOR COMMENTS: Interested persons are invited to submit written comments and/or other documents regarding the terms and conditions of this permitting action. If you submit written comments, you may also request a public hearing on this permitting action. To be considered, comments, documents and requests for public hearing must be submitted no later than 5:00 P.M. on December 21, 2023 to the MDAQMD, Attention: Sheri Haggard, at the address listed below.

PETITION FOR REVIEW: Federal Operating Permits are also subject to review and approval by the United States Environmental Protection Agency (USEPA). If EPA has not objected to the proposed title V permit during its 45-day review period, the public may petition EPA to object to the proposed Title V permit within 60 days of expiration of EPA’s review period. Any such petition must be based on objections that were raised with reasonable specificity during the public comment period unless the petitioner demonstrates either that it was impracticable to raise such objections within the comment period or that the grounds for the objection arose after the comment period. The petitioner shall provide a copy of such petition to the permitting authority and the applicant/permittee. EPA’s website contains more information on petitions, including instructions for submitting a petition and the required content of petitions: <https://www.epa.gov/title-v-operating-permits/title-v-petitions>

AVAILABILITY OF DOCUMENTS: The proposed local air permits that will replace the Federal Operating Permit, as well as the application and other supporting documentation are available for review at the MDAQMD offices, 14306 Park Avenue, Victorville, CA 92392. In
