

**NOTICE OF TITLE V PERMIT SIGNIFICANT MODIFICATION –
PRELIMINARY DETERMINATION**

NOTICE IS HEREBY GIVEN THAT the United States Marine Corps – Marine Corps Logistics Base, Barstow - Yermo Annex, located within the Mojave Desert Air Quality Management District (MDAQMD) at Yermo, California has applied for Preconstruction Review including Significant Modification of their current Federal Operating Permit pursuant to the provisions of Mojave Desert Air Quality Management District (MDAQMD) Regulation XII. Applicant operates a facility engaged in National Defense and operations associated with maintenance and repair of military equipment. Applicant is required to obtain the Significant Modification of their FOP because the Facility has proposed the construction of a new diesel-fueled internal combustion engine powering an emergency generator. Additionally, the Facility proposes replacement of two small arms dip tanks and a diesel-fueled internal combustion engine powering an emergency generator, triggering Minor Permit Modifications.

REQUEST FOR COMMENTS: Interested persons are invited to submit written comments and/or other documents regarding the terms and conditions of the proposed Significant Modification of the United States Marine Corps – Marine Corps Logistics Base, Barstow - Yermo Annex Federal Operating Permit. If you submit written comments, you may also request a public hearing on the proposed issuance of the Federal Operating Permit. To be considered, comments, documents and requests for public hearing must be submitted no later than 5:00 P.M. on January 16, 2024 to the MDAQMD, Attention: Kent Christensen at the address listed below.

PETITION FOR REVIEW: Federal Operating Permits are also subject to review and approval by the United States Environmental Protection Agency (USEPA). If EPA has not objected to the proposed title V permit during its 45-day review period, the public may petition EPA to object to the proposed Title V permit within 60 days of expiration of EPA's review period. Any such petition must be based on objections that were raised with reasonable specificity during the public comment period unless the petitioner demonstrates either that it was impracticable to raise such objections within the comment period or that the grounds for the objection arose after the comment period. The petitioner shall provide a copy of such petition to the permitting authority and the applicant/permittee. EPA's website contains more information on petitions, including instructions for submitting a petition and the required content of petitions: <https://www.epa.gov/title-v-operating-permits/title-v-petitions>

AVAILABILITY OF DOCUMENTS: The proposed Federal Operating Permit, as well as the application and other supporting documentation are available for review at the MDAQMD
