Nature of Business: Fiberglass Bath Tubs and Shower Manufacturer

SIC/NAICS Code: 3088/326191 – Plastics Plumbing Fixture Manufacturing

Facility Coordinates UTM (km) 458.698E/3824.972N

B. BACKGROUND:

The Federal Clean Air Act Amendments of 1990 established a nation-wide permit to operate program commonly known as "Title V". The Mojave Desert Air Quality Management District (MDAQMD or District) adopted Regulation XII [Rules 1200-1210] and Rule 221 - *Federal Operating Permit Requirement*; [Version in SIP = Current, 40CFR 52.220(c)(216)(i)(A)(2) - 02/05/96 61 FR 4217], to implement both the Federal Operating Permit and Acid Rain Permit programs locally and have received Final Program Approval from EPA on March 6, 1996.

This facility (Fiber-Care Baths, Inc.; hereafter, Fiber-Care) is subject to the Operating Permit requirements of Title V of the federal Clean Air Act, Part 70 of Title 40 of the Code of Federal Regulations (CFR), and MDAQMD Regulation XII, *Federal Operating Permits*. Fiber-Care is defined as a federal Major Facility pursuant to District Rule 1201 – *Federal Operating Permit Definition*, as this facility has a Potential to Emit (PTE) greater than the Major Facility thresholds for a single Hazardous Air Pollutant (styrene).

Pursuant to Regulation XII, *Federal Operating Permits*, the District has reviewed the terms and conditions of this Federal Operating Permit and determined that they are still valid and correct. This review included an analysis of federal, state, and local applicability determinations for all sources, including those that have been modified or permitted since the issuance of the initial Federal Operating Permit. The review also included an assessment of all monitoring in the permit for sufficiency to determine compliance. This *Statement of Legal and Factual Basis*, pursuant to Rule 1203(B)(1)(a)(i), is intended to assess the adequacy of the existing Title V Permit and explain the District's basis in composing the proposed Renewal.

In the MDAQMD, state and District requirements are also applicable requirements and are included in the Federal Operating Permit. These requirements can be federally enforceable or non-federally enforceable. State and District only applicable requirements are designated as such.

The purpose of this action is to renew the Fiber-Care Federal Operating Permit.

C. DESCRIPTION OF FACILITY:

Fiber-Care operates under Federal Operating Permit (FOP number: 088201634). The facility is located at 9832 B Yucca Road, in Adelanto, California. Fiber-Care manufactures fiberglass (reinforce plastic composites) showers and tubs. The manufacturing process is comprised of mold preparation, gel-coat and resin laminations, and finishing under SIC Code 3088 - Plastics Plumbing Fixtures and NACIS Code 326191 - Plastics Plumbing Fixture Manufacturing. The manufacturing process begins with mold preparation. The mold is then moved to a gel-coat station/booth and VOC suppressed gel-coat is applied. The dispensing unit is an internal mix, non-atomized airless unit. The mold, coated with a gel-coat is allowed to cure for approximately twenty minutes. The mold is then moved to booth the Lamination #1 spray booth, where first lamination is applied using an internal mix, non-atomized airless dispensing unit. The first lamination also utilizes a reactive suppressant similar to that used in the gel - coat application.

The mold is then moved to another spray booth (Lamination #2), where second lamination is applied. The mold is then moved to a pull station where the newly formed part is hydraulically separated from the mold.

D. MODIFICATIONS TO CURRENT FEDERAL OPERATING PERMIT:

GENERAL UPDATES

- General formatting to improve the consistency of the Title V permits program.
- Update rule citations throughout the permit. Each rule citation was reformatted for program consistency which includes relocating the SIP citations to Part VII. The table sufficiently identifies each rule, the SIP status of the rule and the federal enforceability of each rule.

PART I: INTRODUCTORY INFORMATION

This section of the Federal Operating Permit contains general information about the Fiber-Care facility, including facility identifying information (section A), a description of the facility (section B), and a description of the facility's equipment (section C).

Changes made to this section of the FOP: None

PART II: FACILITYWIDE APPLICABLE REQUIREMENTS; EMISSIONS LIMITATIONS; MONITORING, RECORDKEEPING, REPORTING AND TESTING REQUIREMENTS; COMPLIANCE CONDITIONS; COMPLIANCE PLANS

This section of the Federal Operating Permit contains requirements applicable to the entire facility and equipment (section A), facility-wide monitoring, recordkeeping, and reporting requirements (section B), and facility-wide compliance conditions (section C).

Changes made to this section of the FOP:

- Part II, Section A. Updated to include rule revisions which occurred since the time of the last renewal.
- Part II, Section B, conditions 4 and 5. To ease reporting burden, aligned Title V monitoring reporting period, annual compliance certification and MACT reporting. Added hard dates on which reports are due. The proposed change will not cause a lapse in reporting because the initial report following issuance of the modified Federal Operating permit will cover the period commencing the end of the most recent reporting period and extend through the end of the new reporting period.

PART III: EQUIPMENT SPECIFIC APPLICABLE REQUIREMENTS; EMISSIONS LIMITATIONS; MONITORING, RECORDKEEPING, REPORTING AND TESTING REQUIREMENTS; COMPLIANCE CONDITIONS; COMPLIANCE PLANS

This section of the Federal Operating Permit contains equipment-specific applicable requirements including emission limitations, monitoring and recordkeeping, reporting and testing, and compliance plans.

Changes made to this section of the FOP:

- Updated Part III, Section B, condition 12 to current District policy regarding comprehensive emission inventory submittals.

PART IV: STANDARD FEDERAL OPERATING PERMIT CONDITIONS

This section of the Federal Operating Permit contains standard federal operating permit conditions.

Changes made to this section of the FOP: None

PART V: OPERATIONAL FLEXIBILITY

This section of the Federal Operating Permit contains information on Off Permit Changes.

Changes made to this section of the FOP: None

PART VI: CONVENTIONS, ABBREVIATIONS, DEFINITIONS, MDAQMD APPLICABLE SIP

This section of the Federal Operating Permit contains information on conventions, abbreviations and definitions.

Changes made to this section of the FOP: None

PART VII: DISTRICT SIP HISTORY AND CITATIONS

This section of the Federal Operating Permit contains a SIP table of all applicable District Rules and includes a link to the table of MDAQMD SIP rules and regulations.

Changes made to this section of the FOP:

- SIP table updated to include rule revisions which occurred since the time of the last renewal.

E. RULE APPLICABILITY

District Rules

Rule 201/203 – *Permits to Construct/Permit to Operate*. Any equipment which may cause the issuance of air contaminants must obtain authorization for such construction from the Air Pollution Control Officer. Fiber-Care is in compliance with this rule as they have appropriately applied for a District permit for all new equipment and maintain District permits for all residing equipment per Part II, section A of their FOP.

Rule 204 – *Permit Conditions*. To assure compliance with all applicable regulations, the Air Pollution Control Officer (Executive Director) may impose written conditions on any permit. Fiber-Care complies with all applicable regulations per Part II, section A.3 and A.4 of their FOP.

Rule 206 – *Posting of Permit to Operate*. Equipment shall not operate unless the entire permit is affixed upon the equipment or kept at a location for which it is issued and will be made available to the District upon request. Fiber-Care complies with this regulation per Part II, section A.5 of their FOP.

Rule 207 – *Altering or Falsifying of Permit*. A person shall not willfully deface, alter, forge, or falsify any issued permit. Fiber-Care complies with this regulation per Part II, section A.6 of their FOP.

Rule 209 – *Transfer and Voiding of Permits*. Fiber-Care shall not transfer, whether by operation of law or otherwise, either from one location to another, from one piece of equipment to another, or from one person to another. When equipment which has been granted a permit is altered, changes location, or no longer will be operated, the permit shall become void. Fiber-Care complies with this regulation per Part II, section A.7 of their FOP.

Rule 217 – *Provisions for Sampling and Testing Facilities*. This rule stipulates that the APCO may require the applicant to provide and maintain requirements for sampling and testing. In the event that facilities be equipped to accommodate testing the APCO shall notify the Owner/Operator in writing of the required size, number and location of sampling ports; the size and location of the sampling platform; the access to the sampling platform, and the utilities for operating the sampling and testing equipment. Fiber-Care is in compliance with this rule per Part II, section A.8 of their FOP.

Rule 219 – *Equipment not Requiring a Permit*. This rule exempts certain equipment from District Permit. Fiber-Care is in compliance with this rule per Part II, section A.9.

Rule 221 – *Federal Operating Permit Requirement*. Fiber-Care is in compliance with this rule, as they currently hold and maintain a Federal Operating Permit.

Rule 301/312 – *Permit Fees/Fees for Federal Operating Permits*. Fiber-Care annual permit fees are due by the applicable amounts.

Rule 401 – *Visible Emissions*. This rule limits visible emissions opacity to less than 20 percent (or Ringelmann No. 1). In normal operating mode, visible emissions are not expected to exceed 20 percent opacity. Fiber-Care has specific operating conditions that enforce compliance with this rule, specifically Part II, section A.13.

Rule 403 – *Fugitive Dust*. This rule prohibits fugitive dust beyond the property line of any emission source. Fiber-Care has specific operating conditions to ensure compliance with this condition, specifically Part II, section A.15.

Rule 404 – *Particulate Matter Concentration*. Fiber-Care shall not discharge into the atmosphere from this facility, particulate matter (PM) except liquid sulfur compounds, in excess of the concentration at standard conditions, shown in Rule 404, Table 404 (a).

(a) Where the volume discharged is between figures listed in the table the exact concentration permitted to be discharged shall be determined by linear interpolation.

(b) This condition shall not apply to emissions resulting from the combustion of liquid or gaseous fuels in steam generators or gas turbines.

(c) For the purposes of this condition, emissions shall be averaged over one complete cycle of operation or one hour, whichever is the lesser time period.

Fiber-Care adheres to this rule per Part II, section A.16 of their FOP.

Rule 405 – *Solid Particulate Matter, Weight*. Fiber-Care shall not discharge into the atmosphere from this facility, solid PM including lead and lead compounds in excess of the rate shown in Rule 405, Table 405(a):

(a) Where the process weight per hour is between figures listed in the table, the exact weight of permitted discharge shall be determined by linear interpolation.

(b) For the purposes of this condition, emissions shall be averaged over one complete cycle of operation or one hour, whichever is the lesser time period.

Fiber-Care adheres to this rule per Part II, section A.17 of their FOP.

Rule 406 – *Specific Contaminants*. This rule limits single source of emissions of sulfur compounds. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.18 of their FOP. Note that Fiber-Care currently has no permitted combustion source.

Rule 407 – *Liquid and Gaseous Air Contaminants*. This rule limits CO emissions from facilities. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.19 of their FOP. Note that Fiber-Care currently has no permitted combustion source.

Rule 408 – *Circumvention*. This rule prohibits hidden or secondary rule violations. The proposed renewal as described is not expected to violate Rule 408. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.20 of their FOP.

Rule 409 – *Combustion Contaminants*. This rule limits the emissions of combustion contaminants exceeding 0.23 gram per cubic meter (0.1 grain per cubic foot) of gas calculated to 12 percent of carbon dioxide (CO₂) at standard conditions averaged over a minimum of 25 consecutive minutes. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.21 of their FOP. Note that Fiber-Care currently has no permitted combustion source.

Rule 430 – *Breakdown Provisions*. Any Breakdown which results in a violation to any rule or regulation as defined by Rule 430 shall be properly addressed pursuant to this rule. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.22 of their FOP.

Rule 442 – *Usage of Solvents*. This rule reduces VOC emissions from VOC containing materials or equipment that is not subject to any other rule in Regulation XI. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.23 of their FOP.

Rule 900 – *Standards of Performance for New Stationary Sources (NSPS)*. Rule 900 adopts all applicable provisions regarding standards of performance for new stationary sources as set forth in 40 CFR 60. Currently there are no NSPSs applicable to Fiber-Care.

Rule 1104 – *Organic Solvent Degreasing Operations*. This rule limits the emission of VOCs from wipe cleaning and degreasing operations using organic solvents. Fiber-Care meets this requirement by complying with operating condition listed in Part II, section A.24 of their FOP.

Rule 1113 – *Architectural Coatings*. This rule limits the quantity of VOC in Architectural Coatings. Fiber-Care meets the requirements of this rule by complying with operating condition listed in Part II, section A.25 of their FOP.

Rule 1114– *Wood Products Coatings*. This rule limits the quantity of VOC in Wood Coatings. Fiber-Care meets the requirements of this rule by complying with operating condition listed in Part II, section A.26 of their FOP.

Rule 1115 – *Metal Parts and Products Coatings*. This rule limits the emission of VOC from coatings associated with Metal Parts and Products. Fiber-Care meets the requirements of this rule by complying with operating condition listed in Part II, section A.28 of their FOP.

Rule 1162 – *Polyester Resin Operations*. This rule limits the emission of VOC (and HAPS by nature of the HAPs present in resins) from Polyester Resin Operations, organic Solvent cleaning, and the storage and disposal of Solvents and waste Solvent materials associated with such operations. Fiber-Care meets the requirements by complying with operating condition listed in Part II, sections A. 29 and Part III. Part II of the Title V permit was written to include the sections of the rule that specifically pertains to this facility’s operations (for example the facility does not use closed molding nor do they have a VOC control device installed; therefore, section (C)(1)(b)(and (c) were not written into the permit.)

Regulation X – *Emission Standards for Additional Specific Air Contaminants*. Pursuant to Regulation X, Fiber-Care is required to comply with all applicable ATCMs, MACTs and NESHAPS. There are currently no ATCMs that apply to the Fiber-Care facility. The specific MACTs/NESHAPS applicable to Fiber-Care are listed under the Federal Requirements below.

Regulation XII – *Federal Operating Permits*. This regulation contains requirements for sources which must have a FOP. Fiber-Care currently has a FOP and is expected to comply with all applicable rules and regulations.

Rule 1201 – *Federal Operating Permit Definitions*. Fiber-Care is defined as a federal Major Facility pursuant to this rule.

Rule 1203 – *Federal Operating Permits*. This rule outlines the permit term, issuance, restrictions, content, operational flexibility, compliance certification, permit shield, and violations of Federal Operating Permits. Fiber-Care complies with this rule per Part II, sections B and C, and Part IV and V of their FOP.

Rule 1205 – *Modifications of Federal Operating Permits*. This action to Fiber-Care’s FOP does not constitute a modification; therefore, this rule is not subject to this action.

Rule 1206 – *Reopening, Reissuance and Termination of Federal Operating Permits*. This action to Fiber-Care’s FOP does not constitute a Reopening, Reissuance or Termination of Federal Operating Permits; therefore, this rule is not subject to this action.

Rule 1207 – *Notice and Comment*. This rule outlines the noticing requirements for Notice and Comment. Fiber-Care has and/or will properly notice(d) their renewal pursuant to this rule.

Rule 1208 – *Certification*. Fiber-Care included a Certification of Responsible Official as required with the submitted application for the Renewal.

Rule 1211 – *Greenhouse Gas Provisions of Federal Operating Permits*. Fiber-Care is not a Major GHG Facility pursuant to Rule 1211 and has no requirements pertaining to this regulation.

Regulation XIII – *New Source Review*. This regulation sets forth requirements for the preconstruction review of all new or modified facilities. Fiber-Care is not a new facility nor is it currently a modified facility; therefore, this regulation does not apply.

Rule 1520 – *Control of Toxic Air Contaminants from Existing Sources*. This rule controls the emission of toxic air contaminants from existing source. This permit action does not trigger the applicability of Rule 1520.

Regulation XVII – *Prevention of Significant Deterioration*

Please take notice that this regulation is not currently used within the MDAQMD because the USEPA has not delegated authority for the PSD Program to the MDAQMD at this time. That said, Fiber-Care is not a source subject to PSD as Fiber-Care annual emission are less than the applicability thresholds.

Federal Regulations

40 CFR 63, Subpart A – *NESHAP General Provisions*. Fiber-Care complies with this regulation per Part II, Section C.

40 CFR 63, Subpart M – *NESHAP for Asbestos*. Fiber-Care complies with this regulation per Part II, Section C, condition 7.

40 CFR 63, Subpart WWWW – *NESHAP for Reinforced Plastic Composites*. Fiber-Care complies with this regulation per Part II, Section B, condition 32, Part II, Section C, Condition

10, and Part III, Section B, conditions 5, 6, 9, 10, and 11. Fiber-Care does not use add-on control device and is compliant through use of compliant materials and work practices.

40 CFR 64, *Compliance Assurance Monitoring*. The Compliance Assurance Monitoring (CAM) rule (40 CFR 64) applies to each Pollutant Specific Emissions Unit (PSEU) when it is located at a Major Facility that is required to obtain Title V, Part 70 or 71 permit and it meets all of the following criteria. “PSEU” means an emissions unit considered separately with respect to each regulated air pollutant.

The PSEU must:

- a. Be subject to an emission limitation or standard [40 CFR 64; AND,
- b. Use a control device to achieve compliance [40 CFR 64.2(a)(2)]; AND,
- c. Have the **potential pre-control** emissions that exceed or are equivalent to the major source threshold. [40 CFR 64.2(a)(3)]

As part of its normal business operations, Fiber-Care emits VOC, HAPs, and Particulate Matter (PM) from each PSEU (spray booth). All spray booths share the facility Potential to Emit (PTE) for all pollutants; therefore, for purposes of CAM, each spray booth is considered to have a potential to emit equivalent to the facility PTE.

Facility VOC emissions are capped by permit condition not to exceed 24.9 tons per year, therefore; Fiber-Care does not qualify as a major source of VOC and CAM does not apply for VOC. The HAP emission PTE, primarily comprised of styrene and methyl methacrylate, is in excess of the major source threshold for a single HAP (styrene >10 tpy), however, because Fiber-Care does not employ a control device for HAP emissions, CAM does not apply. PM emissions are controlled by dry filter; however, uncontrolled PM emissions are minimal and do not exceed the 100 tpy major source threshold; therefore, CAM does not apply for PM.

F. CONCLUSIONS AND RECOMMENDATION:

The District has reviewed the application for the renewal of the Federal Operating Permit. The District has determined that the renewal permit is in compliance with all applicable District, state, and federal rules and regulations as proposed when operated in the terms of the permit conditions given herein. The proposed permit and corresponding statement of legal and factual basis has been, or will be, publicly noticed pursuant to District Rule 1207. To view the public notice please refer to Appendix A of this document.

G. PUBLIC COMMENT AND NOTIFICATIONS

1. Public Comment

This preliminary determination will be publicly noticed in accordance with District Rule 1207. Please see Appendix A of this document for noticing details.

2. Notifications

This preliminary determination will be submitted to USEPA and CARB pursuant to District Rule 1205 for a forty-five (45) day review period.

NOTICE OF TITLE V PERMIT/FEDERAL OPERATING PERMIT RENEWAL

NOTICE IS HEREBY GIVEN THAT Fiber Care Bath, Inc. (Fiber-care) located at 9832 B Yucca Road, Adelanto CA 92301, within the Mojave Desert Air Quality Management District (MDAQMD), has applied for the renewal of their Federal Operating Permit (FOP) pursuant to the provisions of MDAQMD Regulation XII. Fiber-care specializes in reinforced plastic composites, manufacturing of fiberglass bath tubs and showers. Fiber-care is required to obtain the renewal of the FOP because the Fiber-care facility triggers the applicability threshold for a FOP for a single hazardous air pollutant.

REQUEST FOR COMMENTS: Interested persons are invited to submit written comments and/or other documents regarding the terms and conditions of the proposed FOP renewal. If you submit written comments, you may also request a public hearing on the proposed issuance of the FOP. To be considered, comments, documents and requests for public hearing must be submitted no later than 5:00 P.M. on April 8, 2019, or thirty days after the publication date of this notice (whichever is later) to the MDAQMD, Attention: Roseana Brasington at the address listed below.

RIGHT TO PETITION USEPA FOR RECONSIDERATION: The proposed FOP is also subject to review and approval by USEPA. If USEPA has not objected to a proposed permit action and the District has not addressed a public comment in a satisfactory manner, the public may also petition the Administrator of USEPA, Region IX, Operation Permits Section at 75 Hawthorne Street, San Francisco, CA 94105 within 60 days after the end of the 45-day USEPA review period (April 23, 2019), to reconsider the decision to not object to the permit action.

AVAILABILITY OF DOCUMENTS: The proposed FOP as well as the application and other supporting documentation are available for review at the MDAQMD offices, 14306 Park Avenue, Victorville, CA 92392. Please contact Roseana Brasington, Air Quality Engineer, at the above address or (760) 245-1661, extension 5706; or, at rnbrasington@mdaqmd.ca.gov for additional questions pertaining to this action and/or corresponding documents.

TITLE V PERMIT RENEWAL APPLICATION – GENERAL FACILITY INFORMATION

17 APR 25 PM 3:41

1. FACILITY ID: <u>1632</u>		FACILITY SIC CODE: _____	
TITLE V PERMIT NUMBER: <u>088201634</u>		PERMIT EXPIRATION DATE: <u>Sept. 18, 2017</u>	
2. COMPANY NAME: <u>Fiber Care Baths</u>			
3. COMPANY MAILING ADDRESS:			
STREET/P.O. BOX: <u>9832 Yucca Road</u>			
CITY: <u>Adelanto</u>	STATE: <u>CA</u>	9-DIGIT ZIP CODE: <u>92301</u>	
4. FACILITY NAME: <u>Fiber Care Baths</u>			
5. FACILITY MAILING ADDRESS:			
STREET/P.O. BOX: <u>9832 Yucca Road</u>			
CITY: <u>Adelanto</u>	STATE: <u>CA</u>	9-DIGIT ZIP CODE: <u>92301</u>	
6. RESPONSIBLE OFFICIAL (AS DEFINED IN 40 CFR 70.2 AND MDAQMD RULE 1201)			
NAME: <u>Tom Kirkmyer</u>	TITLE: <u>President</u>	PHONE NUMBER <u>760-246-0019</u>	
7. TITLE V PERMIT CONTACT PERSON			
NAME: <u>Jay/Jackie (Tech America Corp)</u>	TITLE: <u>Engineering Company</u>	PHONE NUMBER <u>909-628-0044</u>	
8. TYPE OF ORGANIZATION:			
<input checked="" type="checkbox"/> CORPORATION <input type="checkbox"/> SOLE OWNERSHIP <input type="checkbox"/> GOVERNMENT <input type="checkbox"/> PARTNERSHIP <input type="checkbox"/> UTILITY			
9. CAM (COMPLIANCE ASSURANCE MONITORING) PLANS			
Are you required to submit a CAM plan for any emissions unit at this facility? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No			
If yes, submit a CAM plan for each emissions unit as an attachment to the application. See attached CAM plan instructions for more detail.			

14306 Park Avenue, Victorville, CA 92392 | Tel: (760)245-1661

Revised: December 2012

Title V Renewal – 1202E2-A

10. ALTERNATE OPERATING SCENARIOS
 Does this application request alternative operating scenarios pursuant to Rule 120411? Yes No
 If yes, submit an Alternate Operating Scenarios form, as applicable.

11. RISK MANAGEMENT PLAN
 Has this facility been required to prepare a federal Risk Management Plan pursuant to section 112(r) of the federal Clean Air Act and 40 CFR Part 68? Yes No
 If yes, has the federal Risk Management Plan been submitted to the implementing agency? Yes No
 If a federal Risk Management Plan is required but has not been submitted to the implementing agency, provide a detailed explanation as an attachment to the application.

12. STRATOSPHERIC OZONE
 Does the facility conduct any activities that are regulated by the federal protection of stratospheric ozone requirements in 40 CFR Part 82? Yes No

13. ACID RAIN
 Is this facility subject to the acid rain requirement in 40 CFR Part 72 through 40 CFR Part 78? Yes No

14. MAJOR SOURCE STATUS
 Is this facility a major source of greenhouse gases, as defined in MDAQMD Rule 1211? Yes No
 Is this facility a major source of any of the following pollutants:
 VOCs Particulate Matter Carbon Monoxide Nitrogen Oxides Sulfur Dioxides
 Lead HAP

15. PERMIT SHIELDS
 Does the current Title V permit for this facility include any permit shields? Yes No
 If yes, is the basis for each permit shield still correct? Yes No
 If the current Title V permit contains any permit shield for which the basis is no longer correct, provide a detailed explanation as an attachment to the application. If you are requesting an additional permit shield, complete the attached Permit Shield Request form.

16. CERTIFICATION BY RESPONSIBLE OFFICIAL
 Based on information and belief formed after reasonable inquiry, information and statements in the submitted application package, including all accompanying reports, and required certifications are true accurate and complete. I declare, under penalty of perjury under the laws of the state of California, that the foregoing is correct and true:
 Signature:  Date: 4-18-17

14306 Park Avenue, Victorville, CA 92392 | Tel: (760)245-1661
