

## NOTICE OF VOLUNTARY EMISSION LIMIT TO SURRENDER TITLE V APPLICABILITY

NOTICE IS HEREBY GIVEN THAT National Aeronautics & Space Administration – NASA Goldstone Deep Space Communication Complex, located at 93 Goldstone Road in Fort Irwin, CA 92310 has submitted an application to surrender/cancel their Federal Operating Permit (13300611) by electing to voluntarily limit its facility emissions to the extent that the facility is no longer subject to the provisions of District Regulation XII – Federal Operating Permits, pursuant to the provisions of District Rule 221, section B. This permitting action proposes to cap the facility limit for NOx at 80 tons per year which is 20 percent below the Major Facility threshold for a facility located outside the Federal Ozone Nonattainment Area. This proposed limit will effectively designate Goldstone as a synthetic minor source and will alleviate this facility from its Federal Operating Permit requirements. This proposed action will result in a net decrease in potential regulated air pollutants.

**REQUEST FOR COMMENTS:** Interested persons are invited to submit written comments and/or other documents regarding the terms and conditions of the proposed modification to MCC’s Federal Operating Permit. If you submit written comments, you may also request a public hearing on the proposed renewal of the Federal Operating Permit. To be considered, comments, documents and requests for public hearing must be submitted no later than 5:00 P.M. on July 11, 2019, to the MDAQMD, at the address listed below.

**PETITION FOR REVIEW:** Federal Operating Permits are also subject to review and approval by USEPA. If USEPA has not objected to a proposed permit, and the MDAQMD has not addressed a public comment in a satisfactory manner, the public may petition USEPA, Region IX, Operation Permits Section at 75 Hawthorne Street, San Francisco, CA 94105 within 60 days after the end of the USEPA review period for USEPA to reconsider its decision not to object to the permit.

**AVAILABILITY OF DOCUMENTS:** The proposed Federal Operating Permit, as well as the application and other supporting documentation are available for review at the MDAQMD offices, 14306 Park Avenue, Victorville, CA 92392. In addition, these documents are available on the MDAQMD website and can be viewed at following link:
